- Analytical Thinking
- Responsible & Goal oriented
- Good at Planning & co-ordination
- Can work well in teams & solo
- Programming knowledge
- Speaks English, Hindi and Spanish
- Willingness to learn
- Leadership skills

PAST EXPERIENCE

- 1.Coding Internship at Axis Bank
- 2.Coding Internship at Cyware Labs
- 3.Coding Internship at Rubik's Data science
- 4.Participated in School FRC team

PERSONAL PROFILE

I am deeply interested in Physics and Computer Science. I love Coding and have learnt several Computer Languages such as Python, Java & C++. I am also familiar with several different types of AI algorithms as well as advanced data structures. I am also familiar with Kali Linux and have the knowledge to use basic ethical hacking libraries. I am also the leader of my school's coding club.

HOBBIES & INTERESTS

- Programming
- Participating in Model United Nations (MUN)
- Speech & Drama
- Reading
- Researching programming and mathematical concepts
- Swimming, Scuba Diving & Skiing
- Robotics - Participated in First Robotics Competition (FRC)

PROGRAMMING & CODING

I have made some home back end projects that are:

- Virtual Assistant - voice enabled
- Visual recognition of finger placement for adjusting volume of a device (Computer vision)
- Schedule enabler
- Zoom meeting log automator
- Rudimentary employee management system
- AI picture classifier to identify recyclable and organic items (with GUI)
- NLP research project
- Linear regression model
- Rudimentary web scraper
